Important Notices

DISCLAIMER

This presentation has been prepared as of 22 October 2026 by Azzuro Resources PLC (the "Company"). The presentation is for information purposes only. While every effort is made to provide accurate information, this presentation and the information contained in it is subject to material updating, revision and further amendment, and therefore the information contained herein is not a substitute for the recipient's independent investigation and analysis. It will be the recipient's responsibility to undertake such independent investigation, assessment or analysis of the legal, taxation, financial and other consequences of the investment opportunity, including the merits of investing and the risks involved. In no circumstances will the Company be responsible for any costs, losses or expenses incurred in connection with any appraisal or investigation of the investment opportunity. All information in this presentation is subject to change without notice, and any person who receives this document should not rely or act upon it.

This presentation is neither a prospectus nor an offer or invitation to subscribe for or purchase securities in the Company (or any other securities) and neither this document nor anything contained herein shall form the basis of any contract or commitment whatsoever. Neither this document nor the information contained in it should be considered a recommendation by the Company or any of its shareholders, directors, officers, agents, employees or advisers in relation to any investment opportunity in the Company. The release, publication or distribution of this presentation in certain jurisdictions may be restricted by law and therefore persons in such jurisdictions into which this presentation is released, published or distributed should inform themselves about and observe such restrictions.

While the information contained in this presentation has been prepared in good faith, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisers give, have given or have authority to give, any representation or warranty (express or implied) as to the accuracy, suitability or completeness of the information contained in this presentation, or any revision thereof, or of any other written or oral information made or to be made available to any interested party or its advisers (all such information being referred to as "Information") and liability therefore is expressly disclaimed. Accordingly, neither the Company nor any of their shareholders, directors, officers, agents, employees or advisers take any responsibility for, or will accept any liability or responsibility for any loss, damage, cost or expense whether direct or indirect, express or implied, contractual, tortious, statutory or otherwise, in respect of, the accuracy or completeness of the Information or for any of the opinions contained herein or for any errors, omissions or misstatements or for any loss, howsoever arising, from the use of this document and the information contained in it.

Certain statements contained in this presentation constitute: (i) forward-looking statements, estimates and projections which by their nature involve substantial risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. When used in this document, the words "anticipate", "expect", "estimate", "forecast", "will", "planned", and similar expressions are intended to identify forward-looking statements or information. Such statements include without limitation: statements regarding timing and amounts of capital expenditures and other assumptions; estimates of future reserves, resources, mineral production, optimisation efforts and sales; estimates of mine life; estimates of future internal rates of return, mining costs, cash costs, mine site costs and other expenses; estimates of future capital expenditures and other cash needs, and expectations as to the funding thereof; statements and information as to the projected development of certain ore deposits, including estimates of exploration, development and production and other capital costs, and estimates of the timing of such exploration, development and production or decisions with respect to such exploration, development and production; estimates of reserves and resources, and statements and information regarding anticipated future exploration; the anticipated timing of events with respect to the Company's projects and statements; strategies and the industry in which the Company operates and information regarding the sufficiency of the Company's cash resources. Such statements and information reflect the Company's views, intentions or current expectations as at the date of this document and are subject to certain risks, uncertainties and assumptions, and undue reliance should not be placed on such statements and information. Many factors, known and unknown could cause the actual results, outcomes and developments to be materially different, and to differ adversely, from those expressed or implied by such forward looking statements and information and past performance is no guarantee of future performance. Such risks and factors include, but are not limited to: the volatility of product prices and other commodities; uncertainty of mineral reserves, mineral resources, mineral grades and mineral recovery estimates; uncertainty of future production, capital expenditures, and other costs; currency fluctuations; financing of additional capital requirements; cost of exploration and development programs; mining risks; community protests; risks associated with foreign operations; governmental and environmental regulation; and the volatility of the Company's stock price post any initial public offering. These forward-looking statements, estimates and projections speak only as of the date of this document and the Company does not intend, and does not assume or undertake any obligation, to update or release any revisions to, these forward-looking statements, information, projections and estimates to reflect events or circumstances after the date of this document. Furthermore, in furnishing this document, the Company does not undertake or agree to any obligation to provide the recipient with access to any additional information or to update this document or to correct any inaccuracies in, or omissions from, this document which may become apparent.

This presentation references exploration results announced on ASX including: 30 April 2024 "Prospectus"; 28 October 2024 "Outstanding Copper-Nickel Discovery" (as updated and clarified by the 31 October 2024 announcement); 13 January 2025 "High-Grade Massive Sulphide Intercepts Confirmed at Oval"; 28 November 2025 "Assays Confirm Thick and High-Grade Copper and Gold at Maikhan Uul Project"; 18 December 2025 "Excellent Copper Recoveries Confirmed At The Oval Project"; 24 September 2025 "Excellent Copper Recoveries Confirmed at Oval Discovery"; 29 January 2026 "Significant Exploration Advances at Oval Cu-Ni-PGE"; 07 May 2026 "Initial Success at Red Hill (Maikhan Uul) Cu-Ag Project"; 26 May 2026 "Massive Sulphide Zone Extended at Red Hill Cu-Au Project"; 10 June 2026 "High-Grade Assay Results & Extension at Red Hill Project"; 3 July 2026 "High-Grade Copper Mineralisation Continues at Red Hill"; 16 July 2026 "High-Grade Copper-Gold Extends Red Hill To 550m Strike"; 24 August 2026 "Maiden Exploration Targets Defined at Oval and Red Hill"; 1 September 2026 "Red Hill Assays Return High-Grade Copper-Gold"; 7 September 2026 "High-Priority Anomalies Identified at Oval Cu-Ni-PGE"; and 1 October 2026 "New Copper Sulphide Zone Discovered at Red Hill"; all available to view on the ASX announcements platform and on https://www.azzuroresources.com.

The Company confirms that at this time it is not aware of any further new information or data that materially affects the information included in the ASX announcements referenced in the presentation and that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed. The Company further confirms that at this time, the form and context in which the Competent Person's findings as presented in the exploration result announcements have not been materially modified from the original market announcements.

This presentation is authorised for release by the Managing Director of Azzuro Resources PLC.

About Azzuro Resources

- ASX-listed Cu-Au explorer
- 100% of two Mongolian projects, ~8 km apart
- Oval Cu-Ni-PGE — discovered 2024
- Red Hill Cu-Au VMS — acquired Apr 2026

Capital Structure

Shares (CDIs)	**1,024.5m**
Options	**399.2m**
Performance Rights	**18.0m**
Share Price (Oct 23)	**A$0.014**
BoD + Top 20 hold	**68.8%**
Placement Price (Oct)[5]	**A$0.015**
Kerry Mining Group[5]	**19.9%**

Key Highlights

- District-scale Cu-Au corridor
- Exploration Target 21–55Mt[1]
- 89–95% Cu recovery[4] (Oval) — simple flowsheet
- Phase 2 drilling underway to test multiple targets
- On a pathway to JORC inferred resources
- A$3.06m Kerry placement at a 10% premium
- Low-cost, mature mining jurisdiction
- Strategic gateway to Asia

Board of Directors

DAVID PAULL (NON-EXECUTIVE CHAIRMAN) has over 30 years' experience in mining, including the last 10 years in Mongolia with ASX-listed Aspire Mining Ltd as Managing Director and Chairman.

GAN-OCHIR (MANAGING DIRECTOR) has over 22 years' experience in the mining industry, with board roles at Aspire Mining Ltd and Oyu Tolgoi LLC; MSc in Finance (NYU-HKUST).

KIRSTEN LIVERMORE (NON-EXECUTIVE DIRECTOR) has over 25 years' experience in policy, regulation and issue management relating to mining, and led the Australia Mongolia Extractives Program.

NEIL YOUNG (NON-EXECUTIVE DIRECTOR) is an energy sector founder and director with nearly 30 years' experience, including a decade in Mongolia as CEO of Elixir Energy Ltd. He is currently the Chairman of Australian Carbon Vault Ltd.

Mongolia – Mature Jurisdiction

personal use only

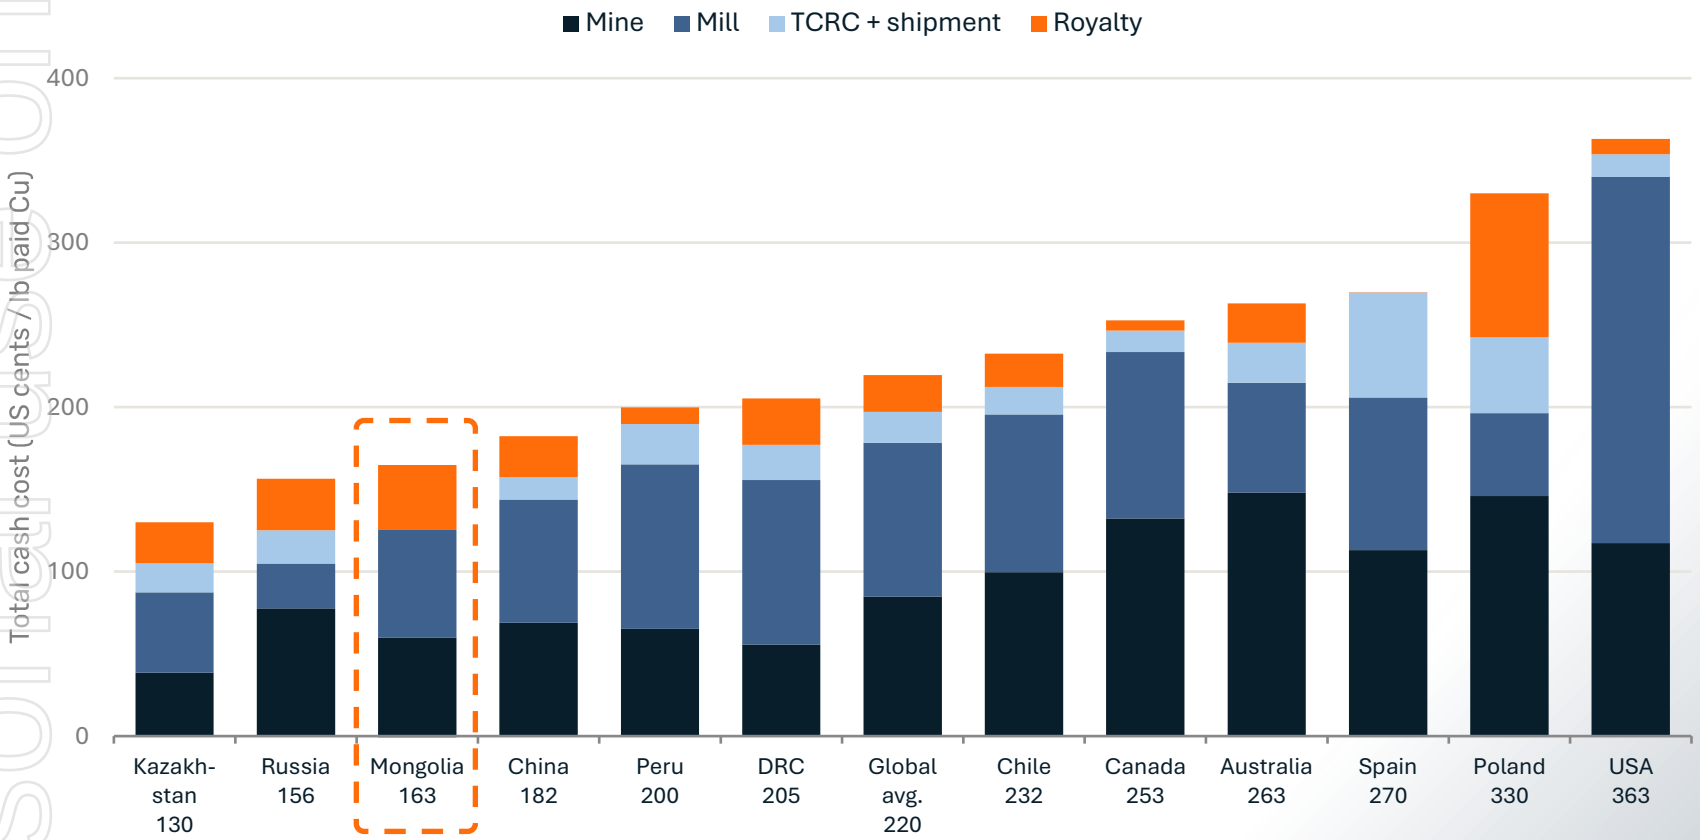

Top-ranked prospectivity	Rated among Asia's top 5 jurisdictions for mineral potential (Fraser Institute). Top 5 safe and peaceful country in Asia (Global Peace index).
Proven Tier-1 success	Home to Oyu Tolgoi, one of the world's very few Tier-1 Cu discoveries to reach production in the past 25 years.
Strategic location	On China's doorstep, the world's largest consumer of copper and critical metals.
Established ecosystem	Presence of majors, mid-tiers, and juniors, supported by export-ready infrastructure and experienced mining professionals.
Underexplored upside	Highly prospective terrain offering cost-effective exploration and supportive regulatory environment.

BOTTOM-DECILE COPPER OPERATING COSTS

MONGOLIA

Mine and mill costs run ~30% below the global average

162.7 ¢/lb
Mongolia total cash cost, 2026E
26% below the 219.6¢ global weighted average

125.4 ¢/lb
Mine + mill cost only
vs 196¢ Chile • 215¢ Australia • 234¢ Canada

9.9 %
Of world copper mined more cheaply
Mongolia = 12th-lowest cost of 40 producing countries

Source: S&P Global Market Intelligence sourced via SLR Consulting, Mine Economics — copper, paid-copper basis, co-product costing, 2026E, Market Intelligence 2025 Constant USD scenario (extracted 30-Jul-2026). Dataset covers 84.65% of 2026E global recovered copper production. Mongolia TCRC + shipment is negative (–2.1¢/lb), reflecting a net by-product/realisation credit.

Red Hill Cu Au VMS

Copper/Gold

Red Hill — Scale Established, Phase 2 Drilling Underway

Acquired Apr 2026 | Phase 1 Apr–Jun 2026 | Phase 2 since Sep 2026

AZZURO RESOURCES

Exploration Target: 15–30Mt @ 0.71–0.9% Cu | 0.26–0.4 g/t Au[1]

Cautionary Statement: The potential quantity and grade of the Exploration Target is conceptual in nature. There has been insufficient exploration to estimate a Mineral Resource, and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

550m+
~150m deep, open at depth
VMS Strike Confirmed

~600m
Near-surface gold zone
Shallow Gold Corridor

11 holes
~1,760m of drilling[1]
To Inferred Resource
for smaller target

Copper-gold VMS

Hole	From (m)	Length(m)	Cu %	Au g/t
MU2601[2]	121.5	13.1	2.58	0.96
MU2603[3]	83.2	21.45	1.70	0.85
MU2610A[4]	142.5	5.0	4.92	0.94
incl. MU2610A	143.9	2.0	11.95	1.99

Shallow gold zone, additional to Exploration Target

Hole	From (m)	Length (m)	Au g/t	Ag g/t
MU2606[6]	18.7	6.0	4.18	–
MU2501[7]	36.9	5.2	6.54	126
MU2610A[4]	49.9	1.9	6.80	67

Phase 2 — Underway

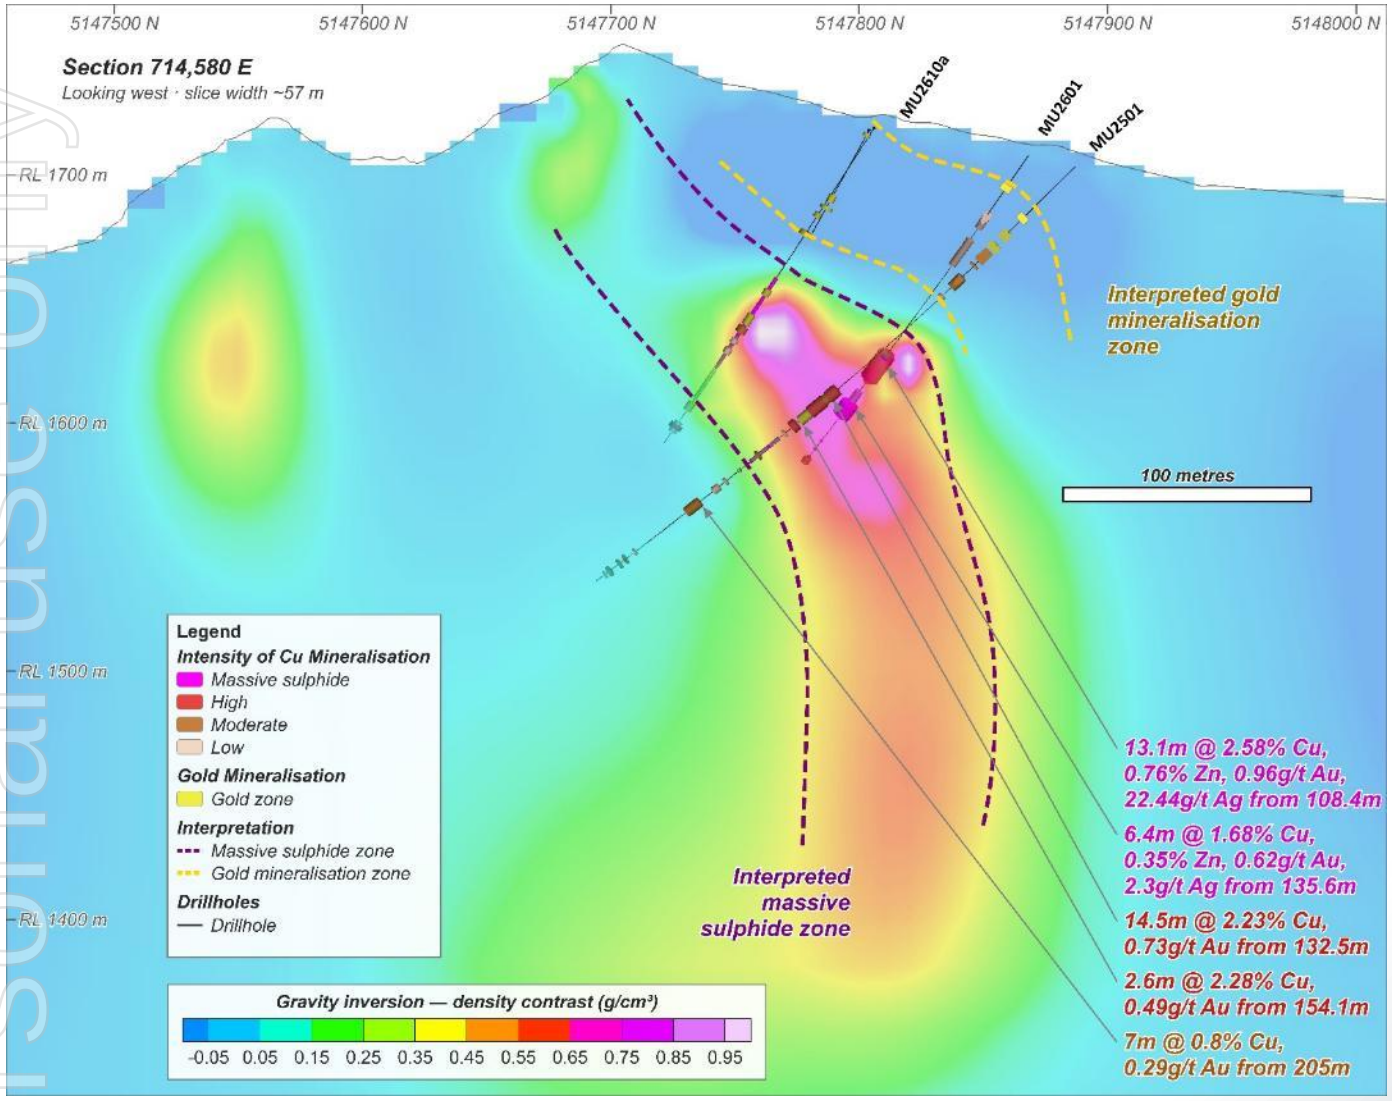

- New Cu sulphide zone in MU2613A, 70–80m north of known lenses, additional to Exploration Target[5]
- DHEM Zones B (~1,000S) and C: priority targets, open at depth; Zone C coincides with gravity[5]
- Deeper 2nd rig mobilising to drill-test Zones B and C
- 5 of 6 Phase 2 holes hit target zones; assays pending[5]
- Flotation testwork results due Q4 2026

1) *Previously announced in ASX announcement dated 24 August 2026 "Maiden Exploration Targets Defined at Oval and Red Hill".*
2) *Previously announced in ASX announcement dated 10 June 2026 "High-Grade Assays and Large Extension Confirmed At Red Hill Cu-Au Project".*
3) *Previously announced in ASX announcement dated 03 July 2026 "High-Grade Copper Mineralisation Continues At Red Hill Cu-Au".*
4) *Previously announced in ASX announcement dated 01 September 2026 "Red Hill Assays Return High-Grade Copper-Gold".*
5) *Previously announced in ASX announcement dated 01 October 2026 "New Copper Sulphide Zone Discovered at Red Hill".*
6) *Previously announced in ASX announcement dated 16 July 2026 "High-Grade Copper-Gold Extends Red Hill to 550m Strike".*
7) *Previously announced in ASX announcement dated 28 November 2025 "Assays Confirm Thick and High-Grade Copper and Gold at Maikhan Uul Project".*

ersonal Use only

Red Hill – Gravity survey & Shallow gold zone

Two independent sources of upside beyond the defined Exploration Target

Gravity Survey – Depth Upside

- 3D constrained gravity inversion completed August 2026
- Interpreted as mineralisation continuing ~240m below the MU2501 high-grade intercept
- Current drilling has tested only the upper portion of the interpreted system
- Separate high-density anomaly to the southwest – untested
- DHEM Zone C coincides with gravity – open at depth[1]

Shallow Gold Zone – Additional Upside

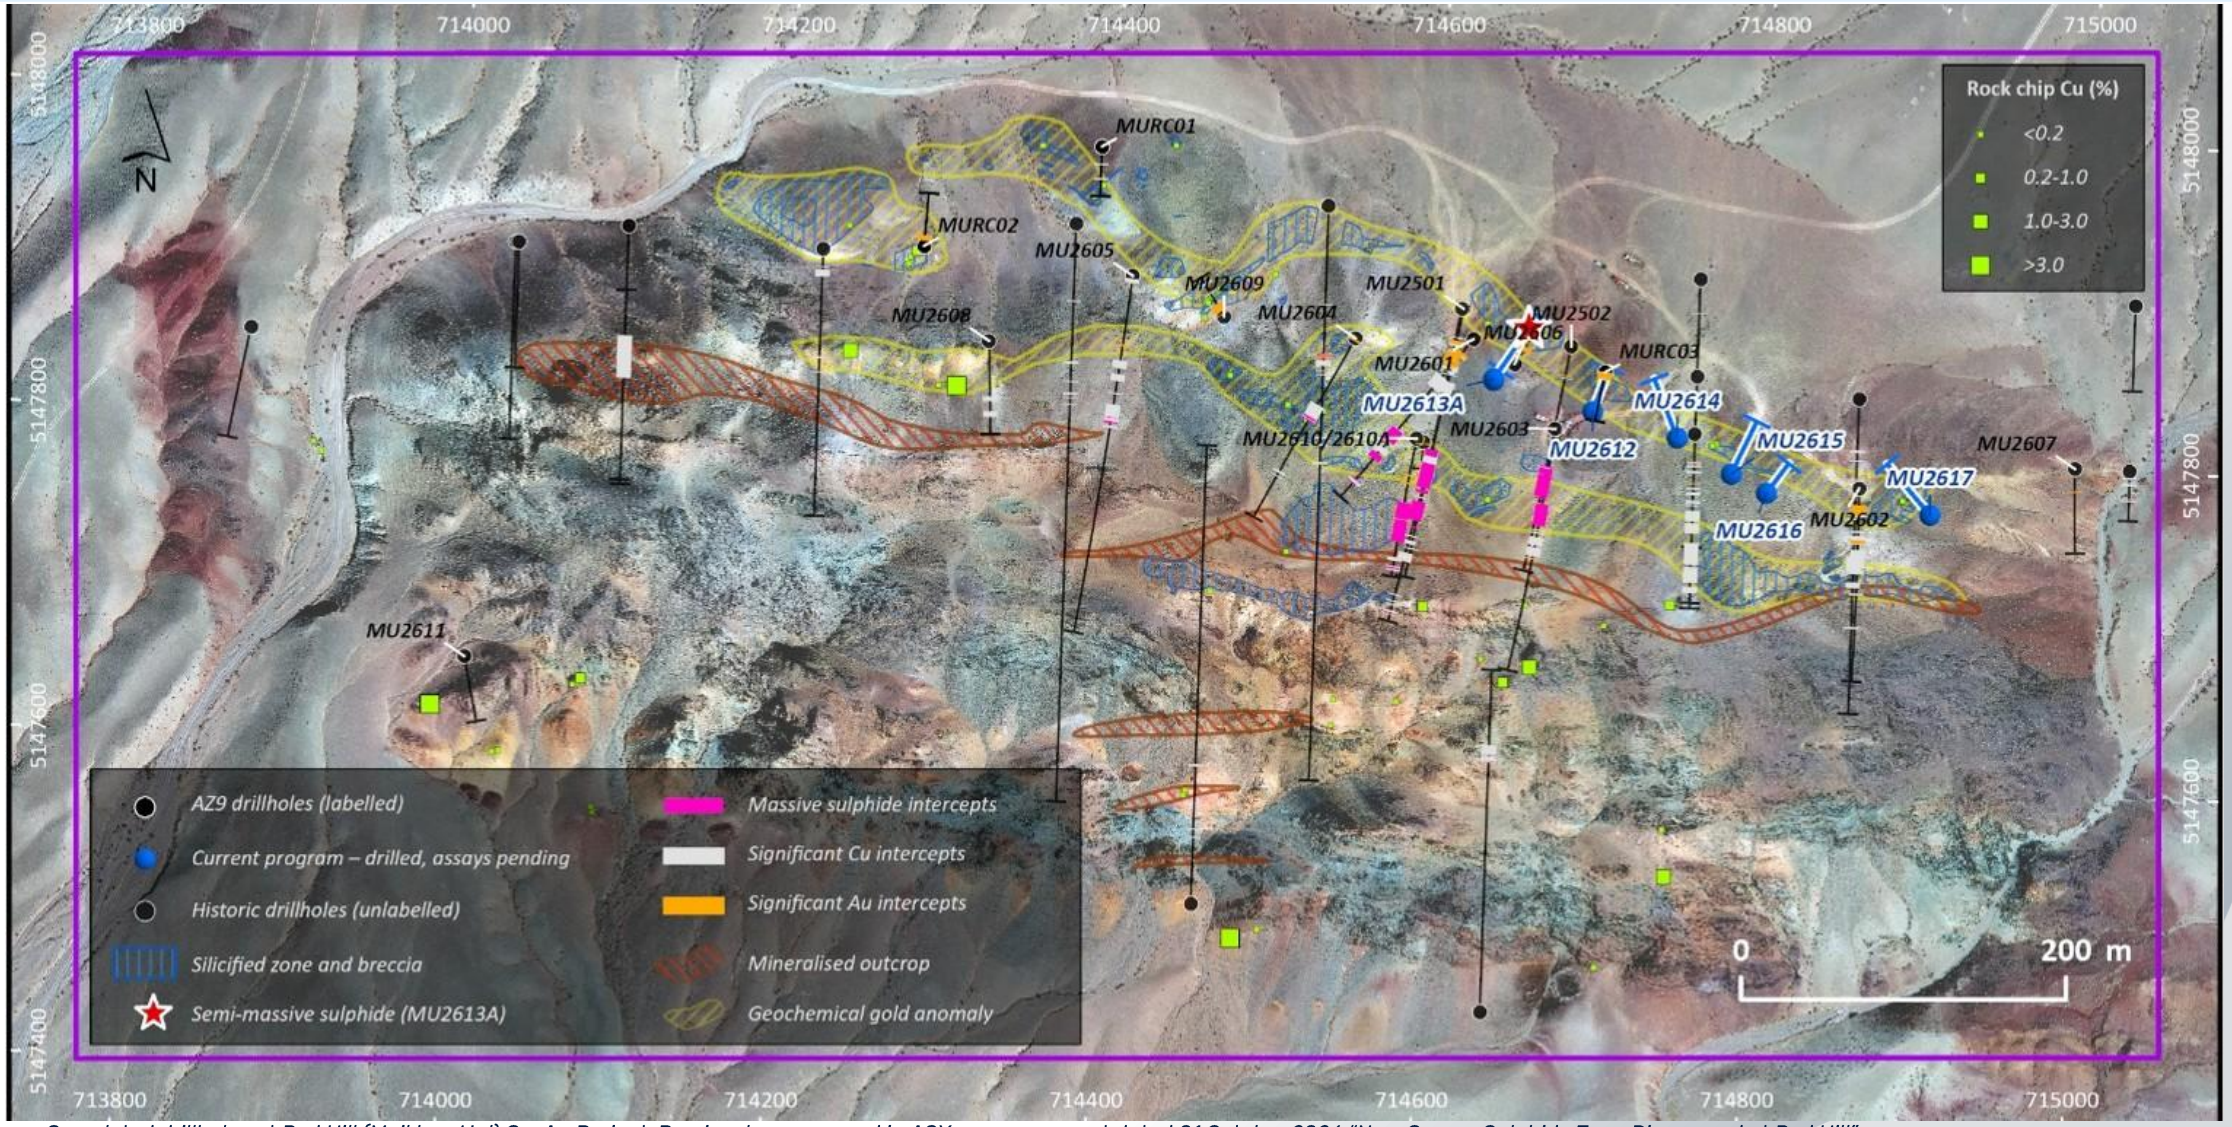

- Shallow gold corridor traced over ~600m of strike, additional to Exploration Target
- **Exploration potential:**
  - ✓ Surface sampling underway to extend strike
  - ✓ Near-surface gold sits above the Cu-Au VMS system
  - ✓ New Cu sulphides beneath the gold zone (MU2613A)[1], also additional to Exploration Target

1) *Previously announced in ASX announcements dated 01 September 2026 "Red Hill Assays Return High-Grade Copper-Gold" and 01 October 2026 "New Copper Sulphide Zone Discovered at Red Hill".*

ersonal use only

Red Hill – Phase 2 Expands the Copper Footprint

New Cu sulphide zone in MU2613A, 70–80m north of known lenses

Completed drillholes at Red Hill (Maikhan Uul) Cu-Au Project. Previously announced in ASX announcement dated 01 October 2026 "New Copper Sulphide Zone Discovered at Red Hill".

ersonal use only

AZZURO RESOURCES

ersonal use only

Oval Cu-Ni-PGE

Copper/Nickel

Oval Cu-Ni-PGE — 880m of Confirmed Strike

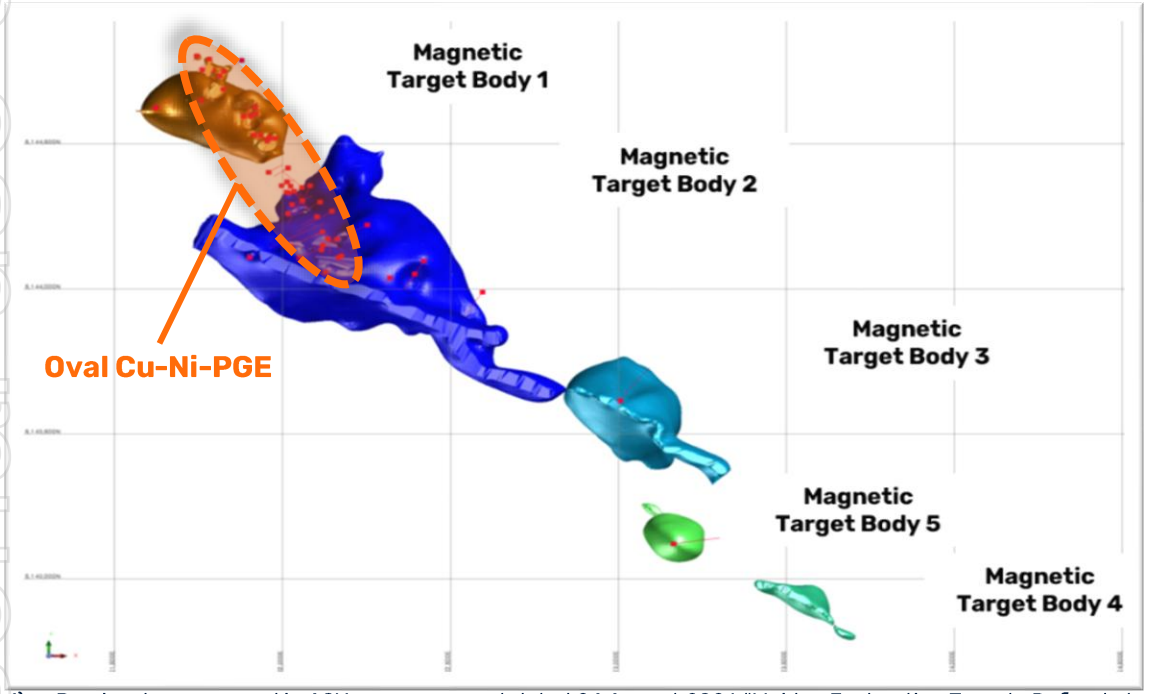

Magmatic Cu-Ni-PGE sulphide system | Flagship Discovery

Exploration Target: 6Mt to 25Mt @ 0.59% to 1.5% CuEq[1]

Cautionary Statement: The potential quantity and grade of the Exploration Target is conceptual in nature. There has been insufficient exploration to estimate a Mineral Resource, and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

880m+
Open SE & at depth
Strike Confirmed

89–95%[2]
Metallurgical Test
Cu Recovery

Geological Setting & Significance

- Magmatic Cu-Ni-PGE sulphide hosted in gabbro/ultramafic
- System open in NE, SW, NW directions and down-dip — significant possible extensions remain untested
- New-style of deposit for SW Mongolia — Norilsk/Voisey's Bay analogue in an under-explored belt

Notable Intercepts

Hole	From (m)	Length (m)	Cu %	Ni %	E3[6] g/t
OVD004[3]	1.0	33.0	2.02	0.44	0.64
OVD021[4]	107.2	8.8	6.08	3.19	1.63
OVD027[5]	72.0	47.5	1.14	0.99	0.30

1) *Previously announced in ASX announcement dated 24 August 2026 "Maiden Exploration Targets Defined at Oval and Red Hill".*
2) *Previously announced in ASX announcement dated 18 December 2025 "Excellent Copper Recoveries Confirmed At The Oval Project".*
3) *Previously announced in ASX announcement dated 30 April 2024 "Prospectus".*
4) *Previously announced in ASX announcements dated 28 & 31 October 2024 "Outstanding Copper-Nickel Discovery".*
5) *Previously announced in ASX announcement dated 13 January 2025 "High-Grade Massive Sulphide Intercepts Confirmed at Oval".*
6) *E3 represents the represents the combined grade of gold (Au), platinum (Pt), and palladium (Pd), expressed in g/t*

ersonal use only

Oval Cu-Ni-PGE — Drill-Ready Targets

3D IP defines nine new anomalies — five priority-1 targets

4,375m

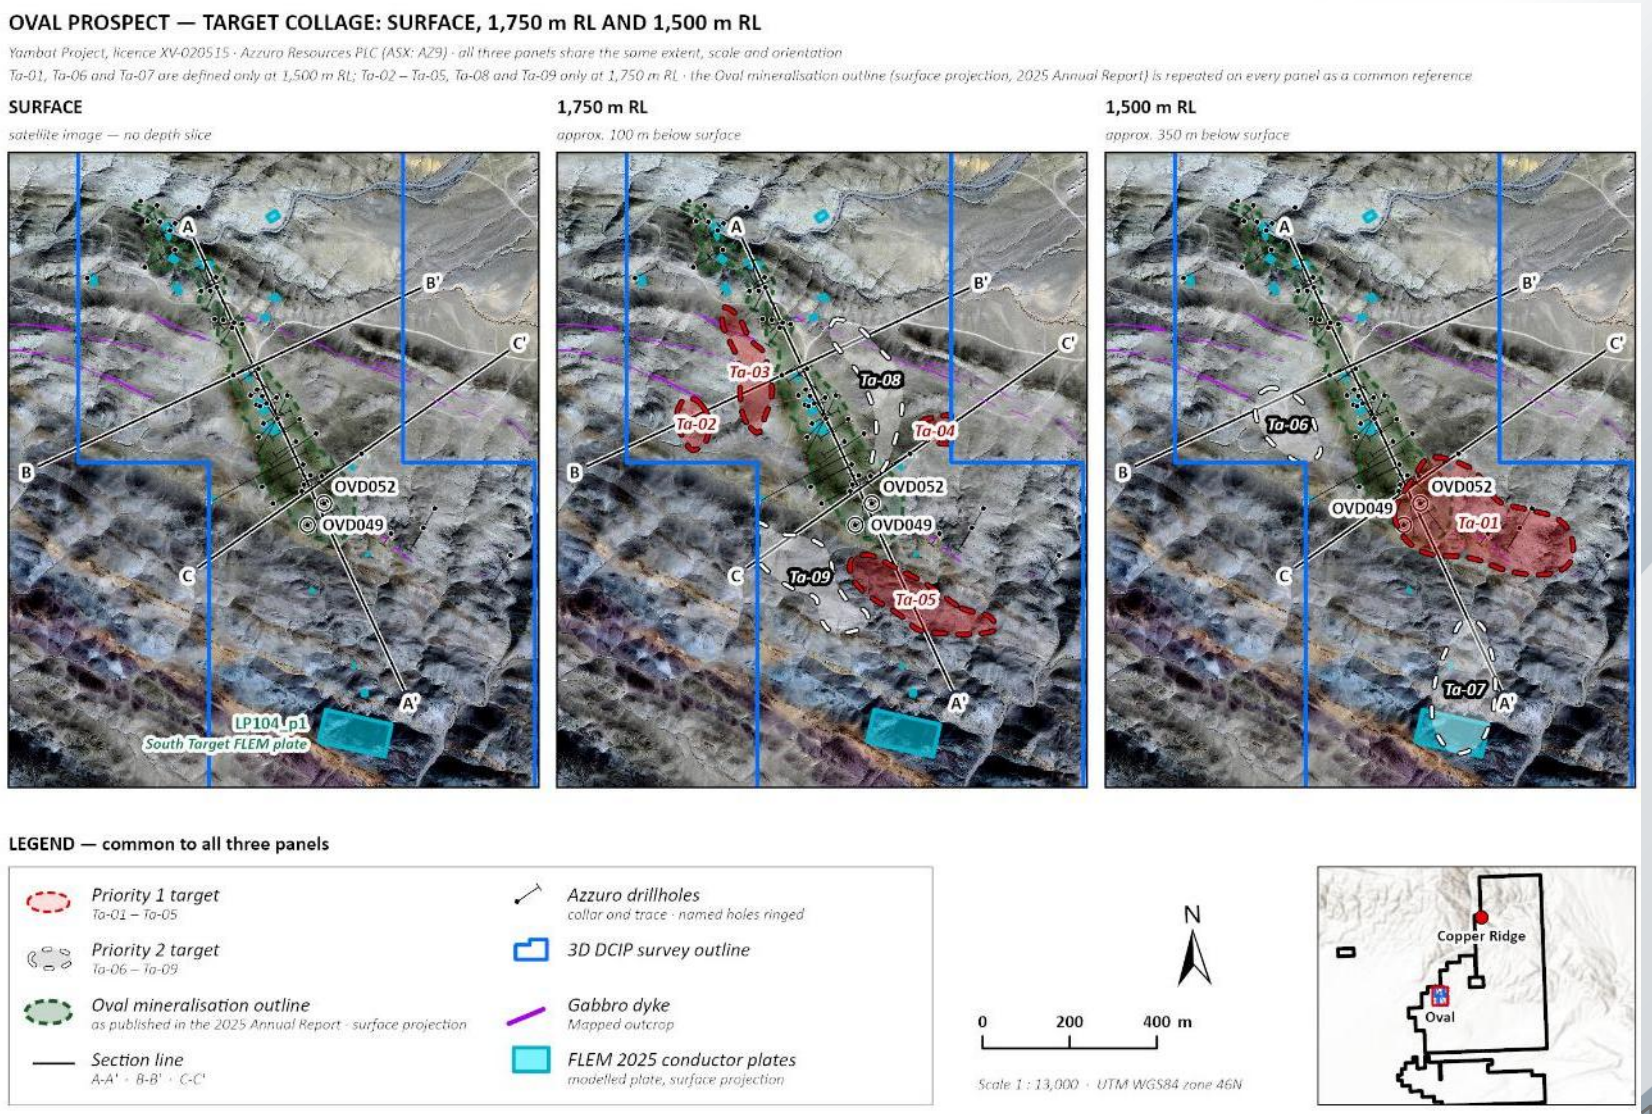

13 drillholes planned

JORC inferred resource conversion & unlocking further potential

Targets & Work Program

- **3D IP:** 9 new anomalies; 5 priority-1 targets[2]
- **Ta-01:** extends to depth beyond OVD052[2]
- **Ta-02 to Ta-05:** shallow, drill-ready[2]
- **Resource conversion:** only 3 holes / **290m** to Inferred for smaller target[1]
- **Discovery drilling:** 10 holes / 4,085m
- **Next:** complete 3D IP; refine targets with new DHEM system

1) *Previously announced in ASX announcement dated 24 August 2026 "Maiden Exploration Targets Defined at Oval and Red Hill".*
2) *Previously announced in ASX announcement dated 07 September 2026 "High-Priority Anomalies Identified at Oval Cu-Ni-PGE Project". Geophysical targets remain subject to drilling confirmation.*

ersonal Use only

Upcoming Catalysts & Work Program

Kerry-Backed & Fully Funded | Strong News Flow Ahead

RED HILL — Cu-Au VMS

Q4 2026 — WORK PROGRAM

- Phase 2 assays — gold zone & new MU2613A Cu zone
- 2nd rig drill-testing DHEM Zones B & C
- Gravity + DHEM targets for depth & strike extensions
- Metallurgical testwork — concentrate characterisation

H1 2027 — RESOURCE MILESTONES

- Maiden JORC Inferred Resource — 11-drillholes pathway
- Metallurgical scoping study; PEA /CEA

OVAL — Cu-Ni-PGE

Q4 2026 — WORK PROGRAM

- Complete 3D IP — 5 priority-1 targets defined
- Phase 2 drilling of priority targets Ta-01 to Ta-05
- Further conductor targeting from DHEM surveys

H1 2027 — RESOURCE MILESTONES

- Maiden JORC Inferred Resource — 3-drillholes pathway
- PEA/CEA

ersonal use only

ESG
(Environmental, Social, and Governance)

The company integrates **ESG as a primary pillar**, leveraging high sustainability standards as a strategic advantage in developing critical minerals for the Asian energy transition.

Environment

Regulatory Compliance
Annually approved **Environmental Management Plans** (EMP) maintained across all license areas

Progressive Rehabilitation
~1.5 ha disturbed to date; technical and biological rehabilitation completed and handed over to soum authorities

Legacy Remediation
Historic 15 drillholes of Red Hill project re-sealed and marked

Community and Social

Stakeholder Engagement
Formal **Risk Assessment and Stakeholder Engagement Action Plan** applied across all project sites

Cooperation Agreements
Social responsibility agreements with soum administrations provide structured, budgeted community support

Local Participation
Herders and local residents engaged directly in rehabilitation works and public consultations

Governance

Regulatory Alignment
Adheres to the **ASX Corporate Governance Principles and Recommendations**

Industry Standards
Aligned with the **Responsible Mining Codex** of the Mongolian National Mining Association

Board Oversight
Board integrates **geological, environmental and policy risk** monitoring into strategic planning

ersonal use only

Mongolia's Next Critical-Minerals Leader Positioned For Growth

AZZURO RESOURCES

Why Mongolia?

Strategic Gateway to Asia
Direct road and rail links to China, which consumes the most copper worldwide and handles roughly 50% of global smelting

Low-Cost, Mining-Friendly
Competitive exploration and development costs with a stable, export-ready infrastructure network

Underexplored Opportunity
Large tracts of prospective ground still untapped compared with other Tier-1 copper provinces

Why AZ9?

Next Big Mongolian Metals Play
Only ASX-listed junior with high-grade Cu–Ni & Cu-Au portfolio capturing the increasing copper & base metals demand

Proven Execution
Local team with global perspective, delivering rapid and efficient exploration

Industry Validation
Discovery driven by BHP Xplor program (2023); A$3.06m strategic investment from Kerry Mining Group (Oct 2026)

District-scale portfolio

District-Scale Potential
- Two projects 8km apart — shared infrastructure, Central Asian Orogenic Belt
- Combined Exploration Target 21–55Mt Cu-Au-Ni[4]

Red Hill Cu-Au (VMS)
- 550m+ strike, open E, W & at depth; 21.45m @ 1.70% Cu[3]
- Target 15–30Mt @ 0.71–0.9% Cu, 0.26–0.4 g/t Au[4]

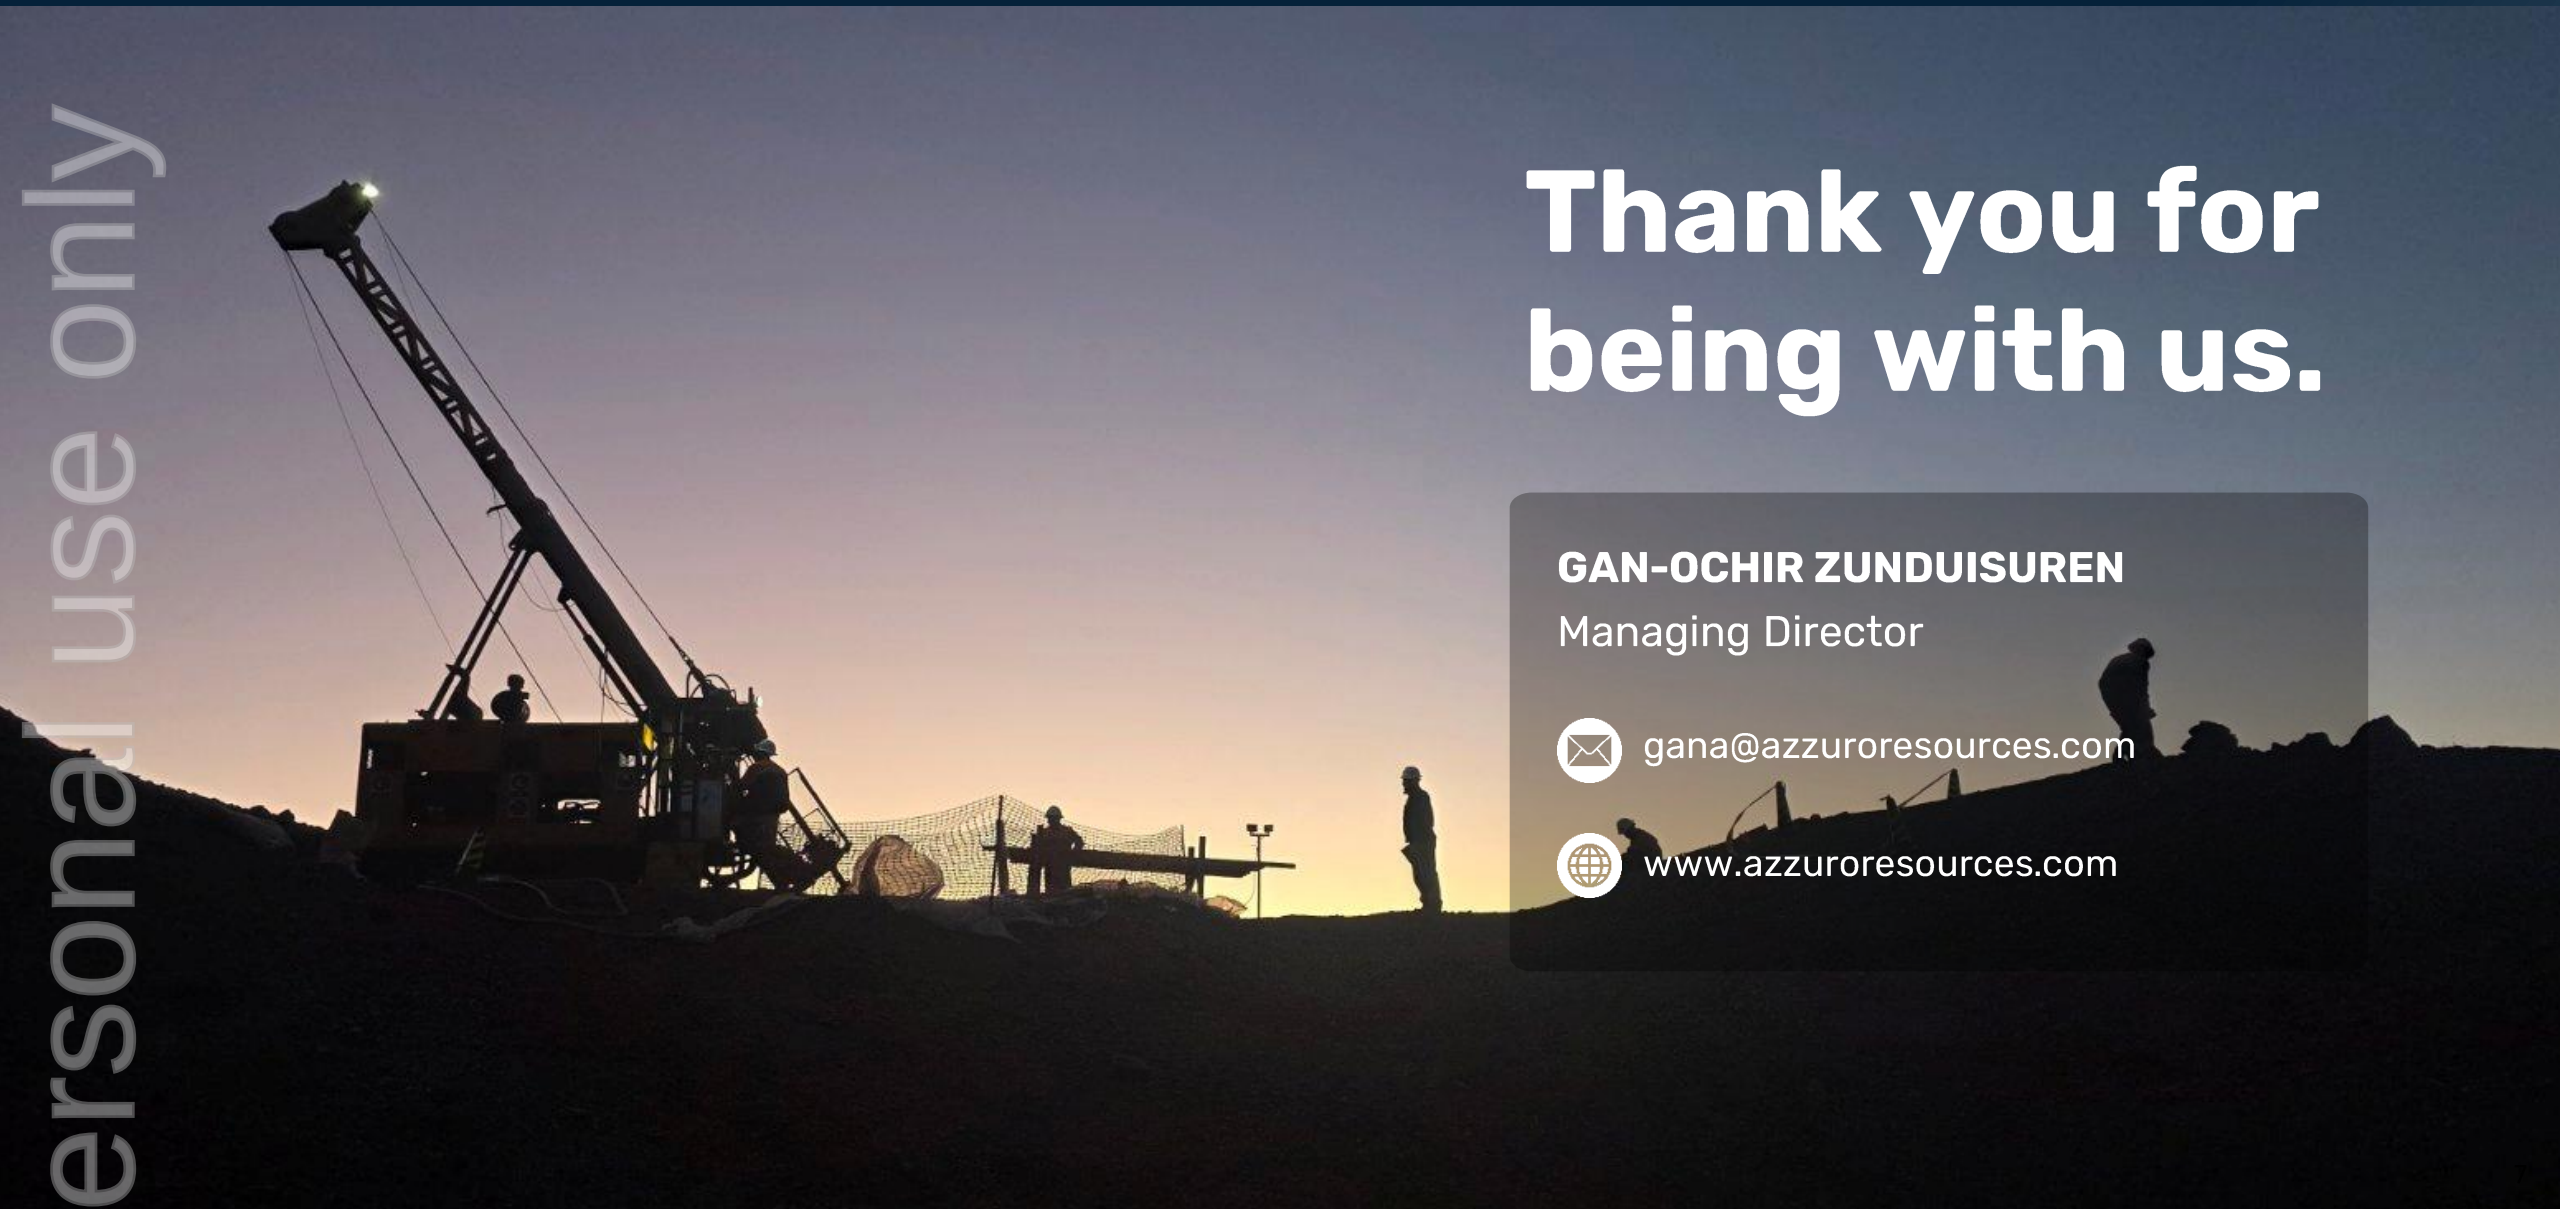

Oval Cu-Ni-PGE
- 880m strike; grades up to 6% Cu, 3% Ni[1]; Cu recovery 89–95%[2]
- Target 6–25Mt @ 0.3–0.7% Cu, 0.26–0.6% Ni[4]

(1) Previously reported in ASX announcement dated 28 October 2024 "Outstanding Copper-Nickel Discovery" (as updated and clarified by the 31 October 2024 announcement).
(2) Previously announced in ASX announcements dated 24 September 2025 & 18 December 2025 "Excellent Copper Recoveries Confirmed at Oval Discovery".
(3) Previously reported in ASX announcements dated 10 June 2026 to 1 September 2026 (Red Hill Phase 1 assay results).
(4) Maiden JORC Exploration Targets announced 24 August 2026; conceptual — insufficient exploration to estimate a Mineral Resource.
